https://beoworld.org Extra Aux input for Beosound

A Beosound with Masterlink can get an extra AUX input by attaching a Beolink converter type 1611, 1612 or 1614 to the Masterlink connection.

The AAL connector on the Beolink Converter will be activated by a Video source command. The Beosound has to be set top A.OPT 2 to be able to receive both audio and video commands.

The setup will not work if a B&O TV is present in the same room and/or connected to the Masterlink connection

Beosound with Masterlink (A.OPT 2)

ΤV DTV SAT

CDV

DVD

* Additional Masterlink link room products like Beolab 2000, Beolink Active or Beolink Passive can also be used or aded in this setup. The setup will not work if a Masterlink TV is connected
